

## B 40 / RFID BIN TAG (Plastic Housing)

### Product Features

- High performance in variety of industrial and logistical applications.
- Specially designed for difficult RFID applications.

### Specifications

|                          |                        |
|--------------------------|------------------------|
| Material:                | ABS Plastic Housing    |
| Adhesive Colour Coding : | Gray / Black           |
| Dimensions:              | 95X25X6.5mm            |
| Frequency Range :        | (Mhz): 860Mhz ~ 960Mhz |
| Globe Protocol :         | EPC Class 1 Gen2       |
| IP Rating :              | IP65                   |
| Installation :           | Screw Fixing           |
| Chip :                   | MR6 or U Code          |
| Weight:                  | 10.2 g                 |
| Operating Temperature :  | -25 to +60 °C          |
| Storage Temperature :    | -40 to +70 °C          |

#### Applications

- Perfect solution for automatic identification
- The asset and machinery maintenance Monitoring of production
- Tracking of container and bins for industrial purposes

#### Features

- Perfect solution for automatic identification
- The asset and machinery maintenance Monitoring of production
- Tracking of container and bins for industrial purposes
