

RFID Industrial Gate

DATE SHEET

RFID Security Gate specially designed for Tracking assets and unauthorized entry and exit by Triggering an Alarm.

This can also be integrated with CCTV for additional security and it is a Standalone technology, which operates independently.

Performance Specifications

RFID Frequency	856 -867 MHz (UHF - EPC C1G2) * Optional for Global band)
Transmit Power (PoE)	0-30dBm (adjustable)
Operating Mode	Active, Trigger
Read Rate	Up to 200 tag reads per second
Max Read Distance	5 meter (adjustable)
Data Interface	Default : USB / wiegand / RS232 *Ethernet, WiFi and GPRS Storage : Yes
Polarization	Circular
Gain	6dbi / 9dbi [optional]
IP Rating	IP 54
Dimensions	1500x250mm
Weight	8 kg
Portal Materials	Metal
Mounting Options	Stand on floor
Power Source (External DC Power)	AC-DC power supply rated for 24Vdc/2.1A
SDK	.NET, ANDROID ,AT COMMAND
