

# RFID UHF ANTENNA\_9dBi

## Model R40-ETSI

**Product Features** This is specially designed for high read range applications and it has high gain performance. Lightweight and compact , compatible with all type of UHF tags . No Interference ,Amazing Accuracy ,Lightning-Fast Readability of RFID tags.

<b>Fields</b>	<b>Of</b>	<b>Application:</b>
Retail,Industrial,Logistics,Automatic		Vehicle
Identification (AVI) Road Tolling,Automotive,Traffic		Monitoring & Traffic Management Systems
Slot Management, Laundry Services,Waste		Management

## Specifications

- Operating Frequency :865 MHz to 868 MHz ( Optional Global )
- Reading Distance :Up to 15 meter
- Gain 9dbi
- Beamwidth: 65°
- Connector Type:RP-TNC female
- Dimension : 250X250X20 (mm)
- Weight:0.91 kg
- Radome : UV Stabilized ABS
- Mounting Hardware :Pole mounting
- Operating Temperature:-40° to +70° C (-40° to +158° F)
