

# RFID UHF Desktop Reader

## Product Features

- Easy-to-Use Desktop Reader
- POS(Point-Of-Sales) System
- Document Tracking
- Access Control
- Tag Programming Stations
- Smart Shelves /Smart Displays
- Inventory Management

## Specifications

Frequency Range	: 865 to 867MHz
Type	; HID Keyboard Emulation
Reading Range	: > 30 cm
Size	: 110mm x 50mm x 10mm
Material	: Plastic
Operational Temperature	: -40~+85
Storage Temperature	: -40 ~+85

### Applications

- RFID Warehouse Applications
- RFID Library Management
- Inventory management
- Retail applications
- Jewelry applications

### Highlights

It can be easily paired with a Desktop computer and offers the convenient way of RFID Data collection. With seamless integration, flexibility and reliability this reader contributes to improved work flow and efficiency.
