PRODUCT OVERVIEW

The LM200 is a high-performance UHF RFID antenna designed to deliver fast, accurate tag identification and efficient RFID infrastructure. Its optimized design supports reliable item counting, even in environments with high tag density, while its slim and sleek form factor enables easy installation on ceilings, walls, dock doors, shopping areas, and other suitable locations.

Device Specification

Dimensions	258mm×258mm×36mm
Weight	0.91kg(without bracket)
Operating Temp	-40°C to + 85°C
IEnclosure Rating	IP67
Radome Material	ABS White

RF Specification:

Frequency	865–868 MHz (ETSI)
Read Distance	upto 6 meters
Polarization	Circular
Beamwidth	70° V / 70° H
Connector Type	N-50KFD (Type N Female)
